## Warriors, Attack!

*Line Attack Heroes* is a fast-paced, melee action game that requires quick thinking and smart strategy. Players command a line of fierce warriors who launch an attack with a flick of the Wii Remote™ controller.

### FEATURES:

- Players are on a quest to discover the missing pieces of a dragon statue. Along the way they encounter a variety of enemies who have different attack techniques.
- When enemies are conquered, they become a part of the main character's attack line and impart their abilities to him.
- Players must use different attack strategies to conquer the various bosses. For example, one attack sends the line of warriors spinning toward enemies in "crack the whip" fashion while another shoots them all forward in a straight line. *Line Attack Heroes* requires players to think fast and strategize when choosing their heroes and assigning their formations.
- Up to four players can compete or cooperate in multiplayer mode.
- The brilliantly detailed and colorful design of the game showcases a number of interesting stages, including a kabuki theater and a magical land filled with giant toys.
